NeuroActive Brain Games

“Fitness for the Brain”

### **Description**

The NeuroActive BrainBike by Motion Fitness is a fun and easy-to-use brain training workout. It delivers a complete set of brain stimulation exercises designed to keep your brain sharp, healthy and youthful; plus, it helps promote a more balanced and active lifestyle.

### **How it Works**

A simple, user-friendly 3D software program that uses advanced artificial intelligence to continuously analyze your performance and adapts and customizes the training to your particular skills. 22 exercises, each take 4-6 minutes.

### **The Benefits**

- Sharpen 16 cognitive functions.
- Better memory, improved concentration, faster reflexes and a clearer mind.
- Learning programs to improve retention and comprehension.
- Protection against cognitive decline seen with age and Alzheimer's.

### **Software Specifications:**

Pro Edition for unlimited users, or Single user.

Complete Brain Training - Standard with BrainBike Train Entire Brain. 22 games. All ages. 8+

### Memory & MultiTasking Booster

Improve memory and multitasking skills.

Age: 11 years and up. 13 Games.

### Learning

Easier learning and better grades.

Ideal for High School and college ages

Age: 11 years and up. 16 Games
